PROFILE

I am an ISTQB certified QA Lead working with Scripbox India Pvt Ltd. Previously worked with TCS and have four years of experience in manual testing and performance testing including one year on-site experience in the United Kingdom. I am a finance enthusiast currently pursuing CFA level 1 with a keen interest in the stock market.

OBJECTIVE

To excel as a Quality Analyst and make the best use of my analytical and communication skills for the benefit of the organisation. I am aspiring to work in an organisation, where I can enhance my knowledge and skills that offer the opportunities for career advancement and professional growth.

EXPERIENCE

■ QA Lead | Scripbox India Pvt. Ltd. | Bangalore 🇮🇳

- ▶ Automation of the web-based application using Selenium Web Driver.
- ▶ Regression and Ad Hoc testing of web-based application
- ▶ In depth understanding of investment in mutual funds and testing the functionality of the application manually.
- ▶ Delivering quality product after ensuring quality testing both manually and after automation.

■ Performance Test Analyst | TCS | Bangalore 🇮🇳

- ▶ Gather non-functional requirements from the stakeholders.
- ▶ Create click paths based on functional requirements.
- ▶ Scripting using multiple protocols on LoadRunner VuGen.
- ▶ Creating test scripts and test scenarios in HP Performance Centre.
- ▶ Running test scenarios. Collating and analysing test results using AppDynamics and SiteScope.
- ▶ Creating detailed NFT test report. Providing improvement suggestions to clients.

■ Manual Test Analyst | TCS | Norwich 🇬🇧, Bangalore 🇮🇳

- ▶ Worked closely with clients in a Distributed Agile Environment spread across 6 locations and 2 Continents.
- ▶ Extensively worked on Behaviour Driven Development. Created BDD feature files and conducted review of feature files before implementation.

- ▶ Actively participated in Story Development Sessions to define the scope of the story and consent on the acceptance criteria.
- ▶ Took part in the Sprint Planning Sessions to define the scope of the sprint and the eligible stories to progress to the sprint.
- ▶ Defining manual test scenarios based on the acceptance criteria.
- ▶ Responsible for developing and executing sprint regression packs.
- ▶ Created and executed End to End journey test packs in the UAT environment.
- ▶ Well versed with the test management tool JIRA.
- ▶ Actively co-ordinated with cross functional teams to ensure timely delivery of test results within the defined timelines.

■ Release Co-ordinator | TCS | Mumbai 🇮🇳

- ▶ Identified stakeholders and organised meetings to transition applications to test team for Microsoft Patch Testing.
- ▶ Facilitated in the transition of applications from the stakeholders to testing team.
- ▶ Co-ordinated with vendors during MS Patch Release to ensure all impacted applications have been thoroughly tested
- ▶ Collected and analysed all the test results submitted by all vendors and provided sign off for Microsoft to patch the servers.
